

K-Love has been an integral part of my life for many years. I have listened daily when we lived in Colorado. My children also listened with me and when their father died, 2 years ago, it helped all of us in our healing process. We have since moved to Cincinnati, Ohio area and were very happy to feel right at home with the same broadcast. It's safe for our children. The message is clean. My friends have also grown to love it too. Please don't displace it with some other LPFM broadcaster. Our families deserve to have a right to choose their preferred broadcast. We love K-Love!
